

Toucan

OUR RAINFORESTS NEED OUR HELP!

Scientists say a large
because people keep on
destroying trees. It also
means that birds and other
animals are going
to be lost and that
is the problem.
People, help the
rain forest because
it will give us our
own place to breathe.

Teach others that it is
important to protect the
environment.

RAIN

Yes, the forest tree
where they have been cut

FOREST

Protect animals in
wildlife
